

CRETANS FIRE ON FOREIGN TROOPS.

Incensed Because They Take Possession of a Fort Near Canea.

ALLIES ACT WITH TURKS.

Bashibazouks Included in the Party Which Occupies the Works.

WARLIKE SPIRIT OF GREECE.

Deputies Declare She Will Go to War if Not Granted Satisfaction by the Powers.

By Sidney Roberts Burleigh.

(Copyright, 1897, by W. R. Hearst.) Canea, Crete, March 29.—Austrian troops landed in Suda today, and some of them came to Canea. Two hundred and twenty-five French, Italian, Russian and English soldiers, with three mountain guns, took possession of Fort Subachi this morning. This was done in order to protect the water supply of Canea. Bashibazouks accompanied them.

Insurgents on the hills fired a few shots from their outposts, but on the whole the first move of the Europeans toward the interior was uneventful, but the impression made on the Cretans by the occupation of a fort by Europeans and Turks is very unfortunate.

Russian officers here have been making trouble and affairs reached a climax tonight when a Russian officer of high rank went into a cafe and fired about him with his revolver.

Turks Start a Fight.

A telegram from the British consul at Retimo today says that Saturday the Russian consul requested the consuls to invite the insurgent chiefs into the town for a conference. This was done, but the Turkish Governor refused to allow them to enter the town. An arrangement was then made for the chiefs to meet the consuls at the village of Koube.

The chiefs arrived at Koube yesterday morning, and the Turkish guards were there to notify consuls of their arrival, but instead of doing so the Turkish soldiers fired at them.

Insurgents then came down from the hills in crowds and Bashibazouks left Retimo, and a desperate fight, which lasted till night, followed.

The Russian consul demanded of the Turkish Governor that the troops be ordered to stop firing and that the Moslem volunteers be withdrawn.

This was not done and the Turkish Governor refused to accompany the Russian consul, who went alone this morning to confer with the insurgent chiefs.

GREECE MORE WARLIKE.

Deputies Declare She Will Fight if the Powers Do Not Grant Her Satisfaction.

By Langdon Perry.

(Copyright, 1897, by W. R. Hearst.) Athens, March 29.—I asked the opinion of seven Ministerial Deputies on the present situation, and they consider it very serious. They told me that if satisfaction is not given to Greece the Greek nation is determined to fight, whatever may be the result.

I have just seen a petition which has been sent in the name of 30,000 Cretan refugees in Greece to each of the rulers of the six great powers. After protesting eloquently against the oppression of a people fighting for their liberty, it says, with reference to the powers' attempt to starve out the insurgents:

"After suffering so much from our oppressors during the long period of servitude we did not expect that a more horrible and ignominious fate would be inflicted upon us by the admirals of the great Christian powers at the moment when we were commencing to breathe the air of liberty.

"In the name of the All Powerful, by whose grace you reign, in the name of philanthropy and human dignity, we implore you to revoke a decision so cruel and to order your admirals rather to give aid and protection to the feeble and oppressed, who seek only to deliver themselves forever from the yoke of heartless tyrants by uniting themselves with Greece."

Two cavalry officers and one Cretan Deputy, who have just arrived from Crete, report that the Greek troops and insurgents are in high spirits, notwithstanding the fact that the insurgents' families are beginning to feel the want of bread, owing to the blockade.

Colonel Vassos continues to establish order and law, appointing public notaries and founding courts of justice. The health of the troops is excellent. Captain Korakas has divided the eastern district into five provinces and appointed local chiefs as prefects to act in the name of King George.

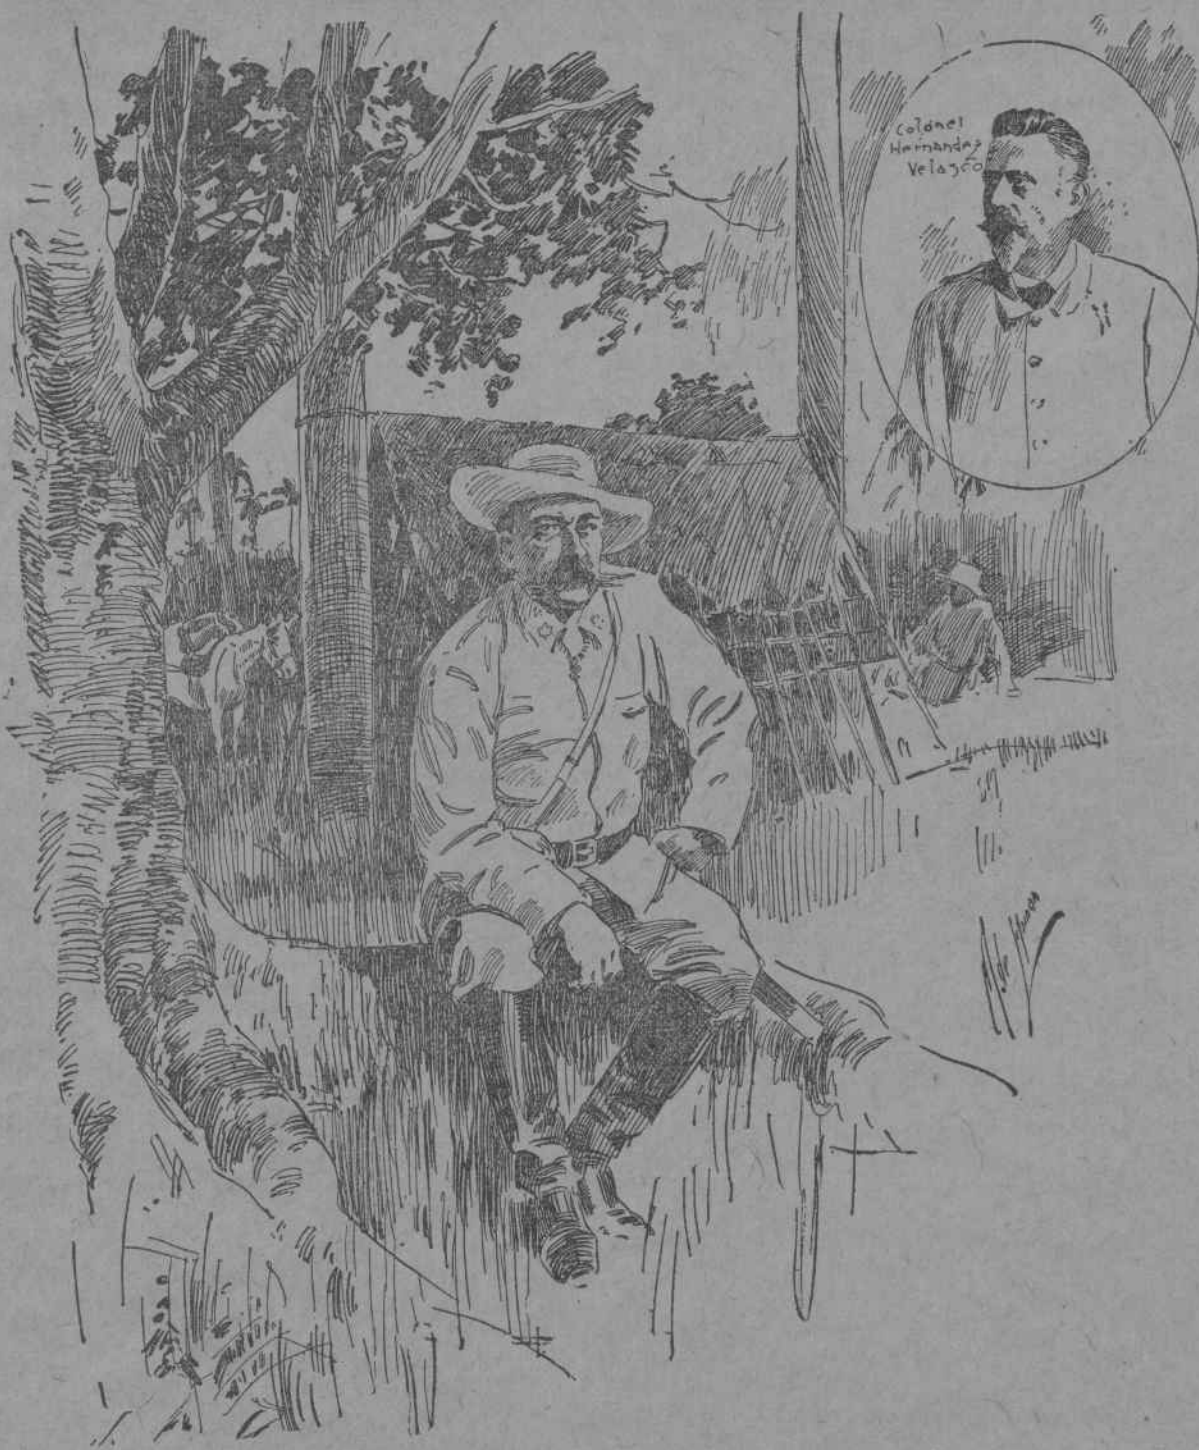

CONSTANTINE AT VOLO.

Greece's Crown Prince Arrives on the Frontier—Salonica Strongly Fortified.

Volo, Thessaly, March 29.—Crown Prince Constantine, accompanied by his wife, Princess Sophie, arrived here today.

Salonica Strongly Fortified.

Salonica, March 29.—Two Greek cruisers and a Greek gunboat were sighted in

RUIS RIVERA AND HIS CAPTOR, HERNANDEZ VELASCO.

The Cuban, Rivera, was the successor of Maceo, and was a brave fighter. He is reported to have been wounded and captured by the Spaniards under command of General Velasco. The Spanish General has during the past year been operating entirely in Pinar del Rio. He was promoted from Colonel to Brigadier-General by Weyler during his last campaign, just before Maceo's death. At that time Velasco was presented with the insignia of his rank by Weyler in the presence of the army.

the Gulf of Salónica yesterday, and their

appearance caused great excitement and provoked unwonted activity on the part of the garrison in expediting the formation of earth redoubts around the Bay, upon which were mounted a number of Krupp and Armstrong guns. In addition to these precautions against an attack Turkish torpedoes were laid in the bay. The supply of munitions of war at Salónica has been largely increased by consignments from Germany.

The movement of Turkish troops to the front on the Greek border continues unabated. Within the past month 65,000 troops have passed through Salonica on their way to the frontier, and the total number of soldiers now under command of Edhem Pasha, the commander-in-chief of the Turkish forces near the Greek border, has reached 150,000. The discipline of these troops, the dispatch says, is perfect, and the men are eager to fight.

Turkey Must Obey Powers.

Vienna, March 29.—The new Reichsrath was opened today by Emperor Francis Joseph in person. The Emperor in his address from the throne said he believed that the action of the Powers in regard to Greece had a tendency toward peace, and he hoped that the policy of the Powers would soon result in a satisfactory settlement of the Cretan difficulty. Though the Powers condemned the attitude of Greece, the Emperor said, they did not mean to encourage Turkey in resisting the reforms which the Powers had demanded that the Porte should institute in the Turkish domains. The Porte, he declared, must remedy the existent abuses in the Turkish Empire and accept the recommendations of the Powers.

Concerning the concert of the powers the Emperor said: "My Government is in accord with the powers, who have taken measures to preserve the territorial status quo and suppress tendencies and aspirations menacing to peace."

Irish Cheers for Cretans.

London, March 29.—George N. Curzon, in the House of Commons today, read the report of the British Admiral at Canea on the capture and destruction of the fort at Malaxa. When the statement was read that the Cretans captured the fort the Irish members cheered vigorously. Mr. Curzon then read that the foreign warships fired upon the Cretans, but were unable to drive them away until the place had been looted and burned. Again the Irishmen cheered with remarkable energy.

The British Admiral wired that owing to repeated attacks on the part of the insurgents the foreign Admirals decided to treat them as enemies (order of "Shame") and to demand more troops from the powers in order to keep them in subjection. Colonel Vassos, commanding the Greek troops in Crete, received warning from the Admirals to this effect and replied to it by ordering the capture of the block house at Malaxa and followed up his success by attacking and capturing the earthwork fort at Suda. Colonel Vassos, the Admiral said, had practically declared war against the powers.

SARCASM IN LONDON PAPERS.

Comment on the Statement That Bradley Martins Will Celebrate the Jubilee.

By Julian Ralph.

(Copyright, 1897, by W. R. Hearst.) London, March 29.—The cable reports of the Bradley Martins' departure caused some amusement here, owing to the flimsy wording. The Globe humorously remarks: "The Bradley Martins appear to be on the point of making a mistake as to the power of the dollar in England, for we read that after a short season in Scotland they propose returning to London in June to celebrate the jubilee." We thought the Queen was going to do that.

Another paper says that this "news" is going to be broken gently to the Queen. Indeed, a perfect web of fiction is already being woven about the Bradley Martins' coming movements and doings.

JUDGE DAY MAY GO TO HAVANA.

McKinley Determined to Learn All Facts About the Ruiz Case.

WILL BE INVESTIGATED.

The President's Canton Friend Asked to Undertake the Inquiry.

Washington, March 29.—If the President's power of persuasion is powerful enough, Judge William R. Day, of Canton, O., will go to Cuba as the President's representative for the purpose of ascertaining the facts with regard to the death of Dr. Ruiz. If the Judge accepts this commission and likes the work, he will be made Consul-General.

Judge Day came to the city early this morning and went to the White House before business hours. The President had communicated with him before he came here, and he knew exactly the work the President suggested he should undertake. Together they reviewed all that is known in the State Department, the documents in the case having been sent over for that purpose. The Judge's call lasted until the President found it necessary to give attention to the stream of callers for patronage. When he left the White House, Judge Day was undecided whether to undertake the task. Judge Day was at the White House again to-night for another interview. The idea at the State Department is that he will accept the commission.

The Judge is one of the President's warmest personal friends—a man of even judicial temperament, who was consulted during the campaign so often by McKinley that it was looked upon as a foregone conclusion that he would be either in the Cabinet or any other office he might select. He declined to consider the tender of any office. The request for him to go to Cuba is more in the nature of asking a personal favor on the part of the President than of rewarding political service.

Consul-General Lee declined to serve in the Ruiz case because he believes the investigation would result in a whitewashing of all the persons concerned. Judge Day is of such a character that whitewashing would be impossible.

SPANISH CREW MUTINIES.

Men on a Gunboat Kill Their Commander and Turn the Craft Over to the Cubans.

By Marion Kendrick.

(Copyright, 1897, by W. R. Hearst.) Havana, March 29.—The crew of a Spanish gunboat has mutinied, killed the commander and turned the launch over to Cuban insurgents. This was the story current at Batabano this morning. The launch, El Dependiente, of the coast guard service, making Batabano its home port, has been missing a week.

Palace officials and admiralty officers here flatly deny the truth of the story of a mutiny, but express anxiety lest the boat has met with a mishap on her cruise. Reports from Batabano are that the crew killed Lieutenant Miguel Varela, the commander, because of his harsh treatment and then ran the launch ashore on the south coast of Pinar del Rio and turned her over to the Cuban rebels, who removed the Maxim gun and other arms and carried them to the interior after having set the boat on fire.

GREAT JOY AT THE JUNTA.

Official News Received of the Landing of the Biggest Expedition Yet Sent to Cuba.

All the attaches of the Cuban "Legacion" in New street were filled with joy yesterday morning.

"We have received official confirmation of the report that General Roloff has landed his expedition," said they. "It is by long odds the biggest expedition yet landed. He went out in the Laurada, and landed near Barracosa. General Roloff took out 3,000 rifles, more than 2,000,000 cartridges, a great lot of dynamite, 600 revolvers, and more important than all, 4,000 rounds of fixed ammunition for the field pieces. All these stores, along with medical supplies, uniforms, etc., were gotten into the interior. "We have had nothing official concerning the expeditions of the Berganda and Three Friends, reported landed."

WANTED TO FIGHT FOR CUBA.

One Man Wished to Head a Company, the Other Had an Odd Weapon.

A sergeant just honorably discharged from the United States army applied at the Cuban Junta yesterday for a commission to enlist a company of trained soldiers to leave for Cuba at once. The officials told him they could not enlist men in America. He would be obliged to go to the island to enlist.

The sergeant had just departed when a tall man with whiskers entered, carrying a long parcel wrapped in paper. He unfolded it carefully and disclosed a tailless rocket carrying ten pounds of dynamite in its head.

"It'll carry 300 yards with a trajectory of 30 degrees," he said. "Just the thing for close fighting, eh?"

The tall man was told to leave his rocket and return when some of the ordnance officers of the Junta were present.

WOULD PACIFY REBELS.

The Spanish Cabinet to Introduce Reforms in Cuba and Philippines.

London, March 29.—A dispatch from Madrid says that the Spanish Cabinet has agreed to introduce reforms into the administration of affairs in Cuba prior to the opening of the Cortes, and upon the assembling of the Chambers will ask that a bill be passed providing indemnity for the outlay incurred. The Government will also institute reforms upon a restricted scale in the Philippine Islands.

WANTS TO ANNEX HAWAII.

Representative Spaulding Offers a Joint Resolution in the House Providing for This—Frye's Aid Secured.

Washington, March 29.—Representative Spaulding, of Wisconsin, today in the House introduced a joint resolution looking to the annexation of Hawaii. The Hawaiian Commission called at the White House last week, and President McKinley then gave Minister Hatch a hint that this would be the proper method to pursue.

Mr. Hatch was further advised that there would be great danger attached to the proposed annexation treaty plan. Senator Frye is to take charge of the matter in the Senate. Under Mr. Spaulding's resolution an appropriation of \$100,000 is authorized to defray the expenses of the missions and negotiations to agree upon the terms and conditions of the admission and concessions.

ENCYCLOPICAL BEING WRITTEN.

The Pope to Make Public a Letter at the Congress of Bishops.

(Copyright, 1897, by W. R. Hearst.) Rome, March 29.—The Pope, assisted by Mr. Tarozzi, is writing an important encyclical, which will be published in the United States in May, when the Congress of American Bishops meets.

BRAVE CUBAN A PRISONER.

General Rivera a Captive in the Hands of Spaniards.

HE IS BADLY WOUNDED.

Captured at the Close of a Gallant, but Disastrous Battle.

THE LOCAL JUNTA DOUBTS IT.

Thinks the Story One of "Weyler's Fakes"—General Calixto Garcia to Be Rivera's Successor.

Havana, March 29.—General Ruiz Rivera, the well-known Cuban leader, has been severely wounded and captured. This news is contained in a report made to the Government by General Hernandez Velasco, who is operating in the hills of the Province of Pinar del Rio. He says that while his command was in the vicinity of Cabezas, in the Rio Hondo district, yesterday, they encountered a party of rebels, 100 strong, under the command of Ruiz Rivera, who was appointed to the command of the insurgents in Pinar del Rio after the death of Antonio Maceo.

The rebels occupied a strong position and fought stubbornly, but after an engagement which lasted an hour they were defeated and dispersed.

Before the rebel position was captured a grenade which was thrown by the Spaniards fell among the insurgents, and, exploding, wounded many of them. This caused a panic and many of the rebels fled. Shortly after the explosion the Spanish infantry penetrated the rebel position. They found Colonel Bacallao, chief of staff to General Rivera, attempting to carry the latter, who had been wounded by three Mauser bullets, to a place of safety.

Rivera and Bacallao Captured.

Both were made prisoners. Lieutenant Terry, of the insurgent party, who had been badly wounded by a fragment of a shell, was also captured. The rebels carried some of their dead with them, but left on the field ten bodies that they were unable to remove. The Spanish loss was only one man killed and one lieutenant and twenty-four privates wounded.

General Velasco sent General Rivera, Colonel Bacallao and Lieutenant Terry in charge of two companies of troops to San Cristobal, at which place the party arrived at 8 o'clock last evening. Lieutenant Terry was so badly injured, however, that he died on the road.

Speaking to a soldier at San Cristobal, General Rivera said that he had been decently treated by his captors. He complained greatly of the pain of his wounds, but was cool and self-possessed. He has one bullet still in his thigh. He is lodged at the quarters of the Guardia Civil.

General Velasco is still operating in the vicinity of Cabezas.

Ruiz Rivera was the successor of Maceo in command of the Cuban forces in Pinar del Rio, and is fifty-two years old. He has always been a bitter foe of Spain, and did heroic work in the ten years' war. He was at that time the associate of Garcia and Maceo, and when the war ended went into exile with those two chiefs.

Garcia to Be His Successor.

Members of the Cuban Junta in New York were loath to believe that Rivera had been captured. Mr. Smith, one of the Junta, said:

"The dispatches from Havana read to me like Weyler bulletins. They say that General Hernandez Velasco, continuing his operations in Pinar del Rio, was engaged yesterday morning with an insurgent force, numbering 100 men, under General Ruiz Rivera. Then the report goes on to say that the insurgents were dispersed and that the position they occupied was captured after an hour's fighting. According to the bulletin, ten of the insurgents were killed and a number wounded, and they retreated in great disorder. But the attacking troops had but one man killed and twenty-four wounded."

"All this bears the earmarks of a Spanish fake. General Rivera has between 5,000 and 6,000 men in his army, and it is hardly probable that he would have but 100 men under him in an engagement."

"Providing the report is true, the cause will not seriously suffer, save from the fact that we have lost one of our best generals. General Calixto Garcia, a veteran of the ten years' war, and the first chief of Rivera, will be transferred from the Province of Santiago to take charge of Rivera's command. There is plenty of enthusiastic available talent in the Cuban army to take the place of the brave man who lost their lives or liberty fighting for the cause. We do not believe, however, that Rivera is a captive."

DR. LUIS SENT TO JAIL.

The Cuban Patriot Sentenced to Imprisonment for Eighteen Months and to Pay a \$500 Fine.

Baltimore, March 29.—Dr. Joseph J. Luis, who was on Friday last found guilty in the United States District Court of conspiracy and of sending an armed military expedition against a friendly nation, was sentenced to-day to eighteen months in the Baltimore jail and to pay a fine of \$500.

Counsel for Luis argued for two hours for a retrial. This being flatly refused by Judge Morris, they devoted their attention to an effort to have the judge suspend sentence and admit the Cuban patriot to bail, pending an appeal to the Supreme Court, but all to no purpose.

CORRESPONDENT IS SLAIN.

C. E. Crosby, of New York, Killed While Watching a Battle in Cuba.

Washington, March 29.—Consul-General Lee has sent the State Department the following telegram:

Havana, March 28.—C. E. Crosby, of New York, representative of the Chicago Record, is reported to have been killed while watching with a field glass the combat between the Spanish and insurgent forces, near Arroyo Blanco, close to the boundary of Puerto Principe and Santa Clara. He came to the island January 30.

Poland Water, for the kidneys, prescribed universally. Circulars, 9 Park Place, New York.

GREAT LECTURES.

Chickering Hall Thronged to Hear and to See

These Magnificently Illustrated Medical Lectures by Dr. Greene.

Dr. Greene is the Most Successful Physician in Curing Diseases.

Unparalleled Success in Curing the Sick and Suffering.

Dr. Greene Can Be Consulted Absolutely Free.

No Charge for Consultation, Examination, Advice or Medical Attention.

All Are Welcome to Call Upon or Write Dr. Greene.

The Sick Can Surely Be Cured by Dr. Greene's Wonderful Remedies.

Dr. Greene, of 35 West 14th st., New York City, is giving his annual Spring free course of magnificently illustrated lectures in Chickering Hall. The surprising popularity of Dr. Greene's free lectures among the people is something wonderful.

In these days of startling discoveries in medicine, it is not to be wondered at that so successful a physician as Dr. Greene, so persistent in his indefatigable search for curative medicines, should have wrested from nature the secrets of her most wonderful remedies—remedies for all forms and phases of disease, remedies which, as prescribed and administered by Dr. Greene, are as sure to cure as day follows night, and do so marvelously in their health-giving, curative and restorative powers as to cause wonder and thankfulness on the part of the sufferer from disease who, after using them, feels again throbbing through his veins and nerves the currents of renewed health, vitality, a new life, a new hope, a new energy in the lusty and vigorous strength of perfect health.

Dr. Greene's discoveries of remedies for various diseases are truly wonderful, wonderful because they are purely vegetable and harmless, but doubly wonderful because of their unerring and unfailing power to cure diseases.

In other words, the weak, sick and suffering can be absolutely sure, if they consult Dr. Greene and use his health-restoring medicines, that they are going to be cured, that they will begin to feel the benefit from the remedies right away and thus be convinced that their cure is not only possible but certain.

This is what the people want. They have experimented enough with doctors and drugs. They have been so often and so bitterly disappointed, tried so many doctors and drugs without benefit or cure, that they have lost faith, almost, indeed, lost hope of ever being restored to health.

To be practically certain of being cured, then, is the first consideration of all sufferers in deciding what physicians to consult and treatment to adopt. And there can be no better assurance of a cure given to any person than the following facts: First, Dr. Greene has the largest practice of any physician in this country among the sick. Second, the vast experience thus gained by the doctor and his corps of expert specialists and assistants, gives a knowledge of disease and diseased actions and conditions of the human body unequalled and unexcelled by any physician in the world. Third, it is very rare indeed that a case is not immediately benefited by these wonderful medicines and soon restored to sound health.

These facts offer practical assurance to everybody that a cure is possible for all and restoration to health and strength sure by the use of Dr. Greene's grand discoveries in medicine. Everybody has heard and almost everybody has observed, the marvelous curative effects of Dr. Greene's Nervura blood and nerve remedy in blood and nerve diseases. People know perfectly well that Dr. Greene's Cathartic Pills are the surest cure and best medicine in the world for biliousness, torpid bowels, indigestion, constipation, etc. But remember that these are but two of Dr. Greene's remarkable discoveries; that his wide experience and deep investigations have developed and perfected no less wonderful remedies for all diseases which afflict humanity.

He has discovered the cure for rheumatism, neuralgia, tumors, growths, humors and eruptions. Throat and lung diseases, kidney troubles, female complaints, seminal weakness and sexual debility yield speedily and readily to these potent yet harmless vegetable remedies. Nervous prostration, epilepsy, St. Vitus's dance, paralysis, heart disease, dropsy, stomach troubles, children's complaints, as well as all affections of a nervous origin, or from vitiated or impaired blood and vitality, are perfectly amenable to this treatment, and astonishing cures are constantly being performed by Dr. Greene's grand medical discoveries.

Another great consideration for the people is to get the best treatment to cure at the lowest price. No physician in the world of Dr. Greene's standing in the profession gives the treatment and medicine to cure at so reasonable a price as does this most successful physician. He compounds all his medicines at his own immense medical laboratory, prepares and prescribes the exact remedies to effect the cure in each case, and the only cost to the sick and suffering is the price of the medicines, which is lower than that of any other physician's treatment when the astonishing curative results are considered.

Remember, the only cost to any one

is the price of the necessary medicines to cure.

Dr. Greene, 35 West 14th st., New York City, or his eminent staff of physicians, can be consulted, in all cases absolutely free, from 9 a. m. to 9 p. m. daily. There is no charge whatever for consultation, examination or advice, and no charge is made for medical attendance, whether you call at the office or write the Doctor a full description of your case. The only possible cost to you is the price of the actual remedies required to cure, and then only after you have decided to adopt the treatment. If you are not in perfect health do not fail to call upon or write Dr. Greene, 35 West 14th st., New York City, immediately, and we promise that you will never regret it.

To-night and on Wednesday night, at 8 o'clock, Dr. Greene will deliver, in Chickering Hall, grand free private illustrated lectures to men only. These lectures will be splendidly illustrated by dissolving views, and will contain valuable advice upon those important subjects of a private nature which all men should know and understand, but too often are ignorant concerning. Admission is free to all parts of the house; all men should attend these valuable private lectures.

This (Tuesday) afternoon at 3 o'clock the Doctor will give a free private illustrated lecture to ladies only. This lecture will be beautifully and accurately illustrated by dissolving views, thus giving ladies a splendid opportunity to understand all those diseases and weaknesses to which they are peculiarly liable.

Valuable hints will be given in regard to preserving health, maintaining a fresh and delicate complexion and keeping a youthful appearance to mature years, as well as other important information. As admission is entirely free, and all ladies are much interested in these matters, there will doubtless be a large attendance.

You Can't Go Amiss if you get a package like this—

if you get a package like this—

It contains the genuine

GOLD DUST

Washing Powder.

It cleans everything and cleans it quickly and cheaply.

Largest package—greatest economy.
